Colorado Department of Corrections

Annual Statistical Report
Fiscal Year 1981-1982

John J. Perko
Executive Director (Interim)

PREFACE

This Annual Statistical Report compiled by the Office of Research and Reporting under the direction of Scott Hromas presents a statistical analysis of the characteristics of offenders admitted to, incarcerated in and released from, the Colorado Department of Corrections. Based upon the types of requests normally received, we have compiled the most frequently requested reports in this publication in the hope that both the public and private sector will have a better understanding of the characteristics and management of Adult Offenders. We are hopeful that this effort will be informative, and welcome inquires for statistics that are not presented in this report. Data inquires should be addressed to:

Tom G. Crago, Ph.D., Director
